*Reasons for Allowance*

The following is an examiner's statement of reasons for allowance:

The prior art made of record does not suggest or fairly teach the combination of elements as recited in the independent claims. Specifically, the prior art of record does not teach:

the comparison step being carried out based on feature values, which are parameter values obtained based on color components as a histogram obtained by quantizing values for respective color information, which is contained as those image components of image components in each of the two-dimensional images, which enable the similarities to be determined, and a shape histogram obtained by quantizing edge differentials.

The dependent claims being definite, further limiting and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
